PUBLIC COMMENT

Ms. Ilene Orlanski, 1851 Torquay stated her reasons why she wanted to serve on the parks and recreation advisory board. She felt the committee needed a voice for seniors regarding affordable modern housing, aging in place, safety issues, expanding hours of senior transportation. She also wanted a review of the M/M Senior Center to make sure it was being utilized to its full potential.

Commissioner Gibbs read a statement on behalf of Ms. Linda Toumaala of 3021 Helen Court and her reasons why she wanted to serve on the parks and recreation advisory board. They needed more research of grants, have a broader method to reach seniors and listen to their concerns. There should be more communication through civic groups. Having an AARP study is two years down the road. The royal oak aging population needed support now.
