

Comcast Internet Essentials Program Offer

Every student should have access to affordable, home Internet and Comcast has launched *Internet Essentials*, to provide that opportunity for low-income families in your community. We have been working with your school districts and community-based organizations to help us inform your eligible families of this opportunity. We welcome your support and your outreach help.

Internet Essentials, a groundbreaking program, developed in consultation with the FCC, will help close the digital divide. If one or more of your children are eligible to participate in the National School Lunch Program, your household may qualify for Internet Essentials.

- Fast home Internet for just \$9.95 a month + tax;
- No price increases, no activation fees, or equipment rental fees;
- A low-cost computer option available at initial enrollment for just \$149.99 + tax; and
- Access to free Internet training - online, in print and in classroom.

Families are eligible to participate in the Internet Essentials program if they live where Comcast offers Internet service; have at least one child receiving free school lunches through the NSLP; have not subscribed to Comcast Internet service within the last 90 days; and do not have an overdue Comcast bill or unreturned equipment.
